

Look Over There!!!

One can't help but wonder... since the enemy is fighting on EVERY front and not just on the one in front of us at the time, if all the craziness we've seen in the past two years could be a distraction.

“Ridiculous!” you say.

Maybe.

Ever fought a war, or strategized one? There's a strategic plan and a tactical plan; a boardroom plan and a battlefield plan.

Even in the battlefield plan, the battlefield strategy itself can be considered tactical to the larger strategy... and there are tactical strategies even within that tactical thing, at the same time there's a battle strategy and battle tactics, even as it is all part of something more strategic. (whew!)

There are layers in planning, and our enemies plan... in layers.

Many of *us* are only now beginning to plan our defenses against them and only a very few of us are working on offensive strategies against the enemy.

One tactic that is very helpful in achieving a strategic victory, and one that is very common is the diversion: the diversionary tactic. You all know what that is; it's “*Hey! Look over there!*”, while something terrible happens right in front of you while you're looking over there.

Do you all remember that just a few short years ago, it seemed like the enemy was the islamization (is that a word? It is now) of America and the world? That seems to have gone away for the last couple of years. Now they're on to something else. Or are they.

Even as the world reels from the phony pandemic, that islamization agenda has neither stopped nor slowed, with even America's politicians still pushing for it.

One case in point is House of Representatives Bill 5665 which was introduced to the House of Representatives on January, 21 of 2021 when American was concentrating on the brand new covid shots that had just rolled out only 30 days earlier. While we were all thinking about safety testing of the shots, mandates, covid test numbers, cycle thresholds, facemasks, a *casedemic*, school closures, holiday restrictions, travel plans thwarted, etc, etc, etc, elected American Representatives in the halls of congress were still working on their strategic goals; the islamization of America and the world. The United States Congress becoming a tactical weapon in that strategic goal.

Following is the actual text of H.R. 5665, and then you can read an American Thinker piece¹ that gives us an insightful look into what it means for the US and the world. I'm only focusing here on the distraction piece...

This bill establishes within the Department of State the Office to Monitor and Combat Islamophobia and addresses related issues.

The office shall monitor and combat acts of Islamophobia and Islamophobic incitement in foreign countries. The bill establishes the position of Special Envoy for Monitoring and Combating Islamophobia, who shall head the office.

The bill also requires certain existing annual reports to Congress about human rights and religious freedom in foreign countries to include information about Islamophobia, such as information about (1) acts of physical violence or harassment of Muslim people, (2) instances of propaganda in government and nongovernment media that attempt to justify or promote hatred or incite violence against Muslim people, and (3) actions taken by a country's government to respond to such acts. The office shall coordinate and assist in preparing these portions of the reports.

No funds made available pursuant to the bill may be used to promote or endorse a boycott, divestment, and sanctions movement ideology (i.e., economic measures against Israel or Israel-related individuals or organizations) or used to promote or endorse a Muslim ban.

Note there is nothing about Muslim atrocities being addressed, only atrocities against Muslims. But that's a subject for another day, and the American Thinker essay will help with that.

Here, I want you to realize this...

We cannot afford to be distracted on any point at all.

War rages around us with tactics aplenty, but the overall strategy of tearing down our ethic, our culture, our foundation must be remembered and recognized wherever and whenever it manifests itself.

I remind you of the “encouraging” words that were given to the SDS, way back in the 60's, when communists needed encouragement to keep their heads in the fight, “*The issue is never the issue. The issue is always the revolution.*”. If we don't remember that that's how they think, and that's how they fight, then that's how they win.

A revolution rages all around us. Our civilization, founded upon the realities of the God of Nature and Nature's God is being undermined and no mistake.

While we know that Allah is the Arabic word for god, the God of nature and nature's God is not Allah.

Should any of you care to know who/what Allah is, let me know and I'll do a short primer on the matter. It's not a secret, it's just been kept secret.

Meanwhile, while we're “looking over there”, Islam/Allah has neither stopped nor even slowed.

Worse than that crazytown bill being introduced into the House of Representatives in January of this year, *IT PASSED* a House vote on December 14th, just two weeks ago... while we were all “looking over there”.

Stand strong, head on a swivel, political and spiritual senses on high alert on every front. The enemy does not abandon his strategies. And even when he seems to be changing his tactics to new ones, it doesn't mean that he has abandoned his old tactics.

Head in the fight... pjh
